II. Read the passage and answer with true (T)/ false (F)/ not given (N)

There are about 3000 living languages in the world, but only six of them are the most important ones. Two-thirds of the world’s population speaks those languages. More than 400 million people speak English as their mother tongue. Another 400 million speak it as a second language. No one knows how many people speak it as a foreign language. Chinese is the language with more speakers than English, but it is only the language for more than one billion Chinese people. English is the official language on one-fifth of the land area in the world. It is spoken in North America, Great Britain, Australia, and New Zealand. In South Africa and India it is one of the official languages. In many countries, the textbooks in universities are written in English. More than three-fourths of the world’s mail is composed in English. More than three-fifths of the radio stations broadcast programs in English. More than half of the scientific and research journals are in English. English is the language of the international communication.

1. Chinese is the most important language.
2. About 66.6 per cent of the world’s population speak six major languages.
3. Vietnamese speak English as their first language.
4. 75 per cent of the world’s mail is in English.
5. 40 per cent of the world’s radio stations use English.
